

12 Days of Christmas

Many sick kids will be far from home this Christmas as they continue their fight to get well in hospital. You can help ensure they have a home away from home, with family by their side.

Help keep families together

You can become a #12DaysofRMHChristmas Gift Matching partner by:

-  Making a tax deductible donation \$1,000
-  Helping spread the word, encouraging your network to get involved and donate to the #12DaysofRMHChristmas appeal through your social channels, email marketing and in your business.

We will provide you with a campaign kit to help make promoting your involvement through your social media, website, and emails easy.

Benefits for your business

You'll have naming rights of one of our 'days' during the #12DaysofRMHChristmas. We'll promote your business as a Gift Matching partner through our social media, email marketing and website - because when the community and your customers see businesses they support giving, they want to give too.

Together we can double the impact we make for families with a sick kid, as your donation will be gift matching donations from the broader community.

What your donation will do

As the countdown to Christmas begins, many of us are planning where we'll spend the festive season with our loved ones.

But what if your world was turned upside down and you were forced to quickly pack a bag and spend Christmas in hospital.

For families who live at Ronald McDonald House, they don't know where they will be spending Christmas. Their lives are regularly disrupted, and they're forced to travel hundreds of kilometres away from home with just the clothes on their backs so their sick child can get the help they need.

Unfortunately, treatment doesn't wait for the festive season to pass.

By joining #12DaysRMHChristmas you can help grant the families at Ronald McDonald House's, Family Rooms and Family Retreat one wish this Christmas - to be together and stay together over the festive season.
