

Apprenticeship in **FABRICATION & WELDING**

One of the modern world's most diverse professions, a career pathway through a boilermaker apprenticeship will see you tackling a range of hands-on metal repair, fabrication and production work. As a fabrication and welding apprentice, you will need the focus and attention to detail to work with metals and produce high quality ships, tanks, boilers, pipelines and other pressurised systems. Your day to day work will include marking out, cutting, shaping and joining sheet metal using a mix of specialised tools.

Apprenticeship in **FABRICATION & WELDING**

Benefits:

- No fees - earn while you learn
- Nationally recognised qualification
- Hands on training
- One on one mentoring and support
- All uniforms and PPE supplied
- Work with the best in Industry

Skill Requirement:

- Spatial awareness
- Normal colour vision
- Good communication skills
- Manual dexterity
- Attention to detail

Day to day duties may include:

- Assemble parts and structures on site during ship building with the aid of cranes and other equipment
- Mark precise guidelines for the cutting, drilling, bending and punching of metal for the installation of major gas pipelines
- Use tools, such as vices, hydraulic presses and rolling machines, or forge metals to shape or bend
- Make full-size patterns, called templates, to be used when making large numbers of identical shapes in a large workshop
- Read and interpret detailed drawings and specifications to determine job, materials and equipment requirements
- Work with a variety of materials including steel, aluminium, copper and more
- Shape and form cut material into products by operating sheet metal shaping, forming, cutting and joining machines

What we are looking for:

- Have a great attitude towards work
- Self-motivated
- Proactive
- Willing to learn
- Be committed to finishing their apprenticeship
- Current driver's licence and reliable transport is preferable
- Enjoy technical activities
- Strength to handle materials, tools and machines
- Good hand-eye coordination
- Patient and safety conscious
