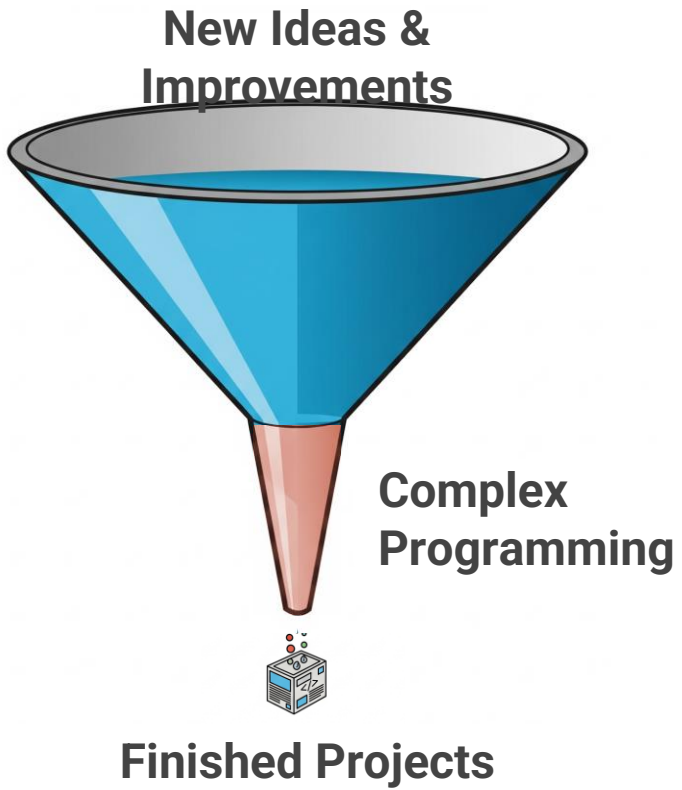
Industrial Bottleneck to Growth That We Don't Talk About

Alex Sharikov

ControlX engineering

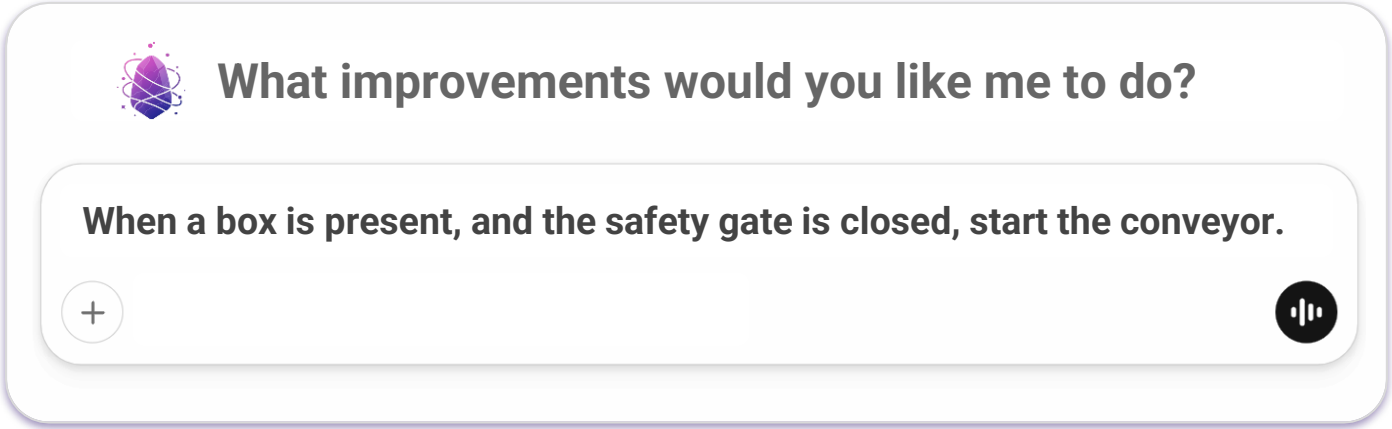
Great Ideas Get Stuck Here

- Heavy reliance on a few key specialists.
- Small changes can take weeks.
- Innovation gets delayed.



What if Machines Could Understand Our Language?

- Introducing **JasperNode**: An AI ✨ powered assistant for industrial controls.
- Translates natural language into secure, reliable machine code.
- Empowers your existing team to build and modify systems faster.



Let's Build the Future of Hunter Industry, Together

- We are seeking innovative local partners for a pilot program.
- Do you have a project where frequent controls modifications needed?
- Let's have a conversation.
